POSTMASTER: If undeliverable send notice on Form 3573 to R. W. Gustafson, 22 Dexter Street, Bangor, Maine.

EXECUTIVE COUNCIL OF THE MAINE STATE FEDERATION OF LABOR

President—B. J. Dorsey, 26 Pier Street, Bangor.

Secretary—C. O. Dunton, 434 Pier Street, Bangor.

Treasurer—R. W. Gustafson, 22 Dexter Street, Bangor.

VICE-PRESIDENTS

John F. Wheeler, Penobscot Street, Millinocket C. L. U. District.

Lee J. Ashey, Buckport, C. L. U. District.

H. Alton Wright, Ridgeline, Augusta, C. L. U. District.

Horace E. Howe, 22 Reynolds Street, South Portland, C. L. U. District.

C. Arnold Brown, Woodland, C. L. U. District.

JANUARY, 1941

Stop, Look and Listen!

The Government's defense program offers Labor's critics excellent opportunities to continue their "ganging-up" methods, and by this means hope to bring sufficient discredit to warrant delay in the unions' progress.

Evidence submitted during the past few weeks in denial of stories which appeared in daily newspapers which accused trade unions of taking advantage of the defense program to gouge workers through the payment of enormous initiation fees and high dues, should cause readers to "Stop, Look and Listen," and by this means become thoroughly satisfied that criticisms given wide publicity in daily newspapers are unfounded.

To attempt to answer all criticisms would be a colossal task, as haters of Labor unions—those who, from purely selfish motives have ambitious designs against their progress—were never before active and persistent as at present.

It is most gratifying that in practically all cases, those including the iron workers who drew a "fat" week's pay while employed on the Capitol building in Washington; the incident which caused Mrs. Roosevelt to refer to the "initiation fee charged for the Washington Electrical Workers' Union as a "racket"; the fake story appearing in a Washington newspaper which told of a reporter who secured a job as a carpenter at fabulous wages, and others, the unions were exonerated, and in some instances those responsible for outbursts against unions made extended apologies.

Most prominent among these stories, which gave Labor's enemies an opportunity to "crack down," and who took advantage of the anti-strike bill now before Congress, was the initiation fee charged by the Electrical Workers' Union, which, because of an unusual combination of circumstances involved the name of Mrs. Roosevelt, caused nation-wide publicity.

According to Congressman John H. Tolson, head of the House Committee which heard the story told by Mrs. D. W. Thomas about her husband being unable to secure a job as an electrician because of his inability to pay the initiation fee required by the union, and the reported statement that Mrs. Roosevelt had referred to this as a racket, upon investigation by the committee, declared that "there was no evidence of racketeering or irregularity," and the union was exonerated from any such charge.

All kinds of schemes are being concocted during these excitable times to poison the minds of an innocent public against trade unions. It is a repetition of World War days, when everything under the sun was tried to interfere with Labor in its efforts to stabilize conditions, which it could set aside.

"As men do not live by bread alone, they do not fight by armaments alone. Those who man our defenses, and those behind them who build our defenses, must have the stamina and courage which come from an unshakable belief in the manner of life which they are defending. The mighty action which we are calling for cannot be based on a disregard of all things worth fighting for."

"The nation takes great satisfaction and much strength from the things which have been done to make its people conscious of their individual stake in the preservation of democratic life in America. Those things have toughened the fiber of our people, have renewed their faith, and strengthened their devotion to the institutions we make ready to protect."

"Certainly this is not the time to stop thinking about the social and economic problems which are the root cause of the social revolution which is today a supreme factor in the world."

"There is nothing mysterious about the foundations of a healthy and strong democracy. The basic things expected by our people of their political and economic systems are simple. They are:

"Equality of opportunity for you and for others. Jobs for those who can work. Security for those who need it. The end of special privilege for the few. The preservation of civil liberties for all. The enjoyment of the fruits of scientific progress in a wider and constantly rising standard of living."

"These are the simple and basic things that must never be lost sight of in the turmoil and unbelievable complexity of our modern world. The inner and abiding strength of our economic and political systems is dependent upon the degree to which they fulfill these expectations."

"Many subjects connected with our social economy call for immediate improvement. As examples: We should bring more citizens under the coverage of old-age pensions and unemployment

lead to our entrance into the war. As a matter of fact, to quote them, they are the belief that the President is successfully steering that nation in that direction."

It is most fortunate that Senator Wheeler has comparatively few people who believe as he does. Quick to grasp the opportunity to make its campaign effective was the National Committee to Keep the United States Out of War, which, within a few days, circularized the entire country with quotations from Senator Wheeler's speech.

No one except those who "see green" when anything is done which establishes danger of our possible entrance into the war, could see anything in the President's message which in any way can be construed to mean actual warfare. It is as plain as day that the President is wholly concerned with future possibilities, should we be left alone to fight a combination of dictators whose aims, hopes and aspirations are to rule the destinies of the people of the entire world.

There is one thing certain. If we should go the limit in helping Great Britain in her present dilemma, we cannot be in a worse position than we are at present in the eyes of the Axis powers. Our actions during the past year have been regarded by Germany and Italy as interfering with their program to defeat England. Hence, if we are satisfied that England's defeat may endanger the future of our own nation, it behoves us to spare no pains to do all that is possible to save England from defeat.

When the President said in his message that America should be made "the Arsenal of Democracy" he said just what he meant, viz: that every citizen in this country must put forth all possible efforts, short of war, to stop Germany, Italy, Japan and Russia from invading our shores, and that the best way to do this is to help England to victory.

Would Shame Slackers by Patriotic Example

Slackers and trouble-makers came in for a severe trouncing in President Roosevelt's address at the opening of the 77th Congress last Monday, when he warned them that nothing whatever must stand in the way of speed and efficiency, and that defense preparations must give way to the national need.

The President appeared to have become extremely impatient with a certain element who, as they did during World War No. 1, aim to make huge profits out of war, and mind no words in calling their attention as to what might happen to them in case they're rearing on what is expected from them in the present emergency.

In the course of his address, Mr. Roosevelt said, in part:

"We must all prepare to make the sacrifices that the emergency—as serious as war itself—demands. Whatever stands in the way of speed and efficiency in defense preparations must give way to the national need."

"A free nation has the right to expect full cooperation from all groups. A free nation has the right to look to the leaders of business, of labor, and of agriculture to take the lead in stimulating effort, not among other groups, but within their own groups."

"The best way of dealing with the few slackers or trouble-makers in our midst is, first, to shame them by patriotic example, and if that fails, to use the sovereignty of government to save government."

Desires of making everybody conscious of their individual stake in the preservation of Democratic life in America; and that stamina and courage are most essential to successfully meet present disturbed conditions, the President said:

"As men do not live by bread alone, they do not fight by armaments alone. Those who man our defenses, and those behind them who build our defenses, must have the stamina and courage which come from an unshakable belief in the manner of life which they are defending. The mighty action which we are calling for cannot be based on a disregard of all things worth fighting for."

"The nation takes great satisfaction and much strength from the things which have been done to make its people conscious of their individual stake in the preservation of democratic life in America. Those things have toughened the fiber of our people, have renewed their faith, and strengthened their devotion to the institutions we make ready to protect."

"Certainly this is not the time to stop thinking about the social and economic problems which are the root cause of the social revolution which is today a supreme factor in the world."

"There is nothing mysterious about the foundations of a healthy and strong democracy. The basic things expected by our people of their political and economic systems are simple. They are:

"Equality of opportunity for you and for others. Jobs for those who can work. Security for those who need it. The end of special privilege for the few. The preservation of civil liberties for all. The enjoyment of the fruits of scientific progress in a wider and constantly rising standard of living."

"These are the simple and basic things that must never be lost sight of in the turmoil and unbelievable complexity of our modern world. The inner and abiding strength of our economic and political systems is dependent upon the degree to which they fulfill these expectations."

"Many subjects connected with our social economy call for immediate improvement. As examples: We should bring more citizens under the coverage of old-age pensions and unemployment

insurance; we should widen the opportunities for adequate medical care, and we should plan a better system by which persons deserving or needing gainful employment may obtain it.

"I have called for personal sacrifice. I am assured of the willingness of almost all Americans to respond to the call."

That Congress will back the President in his efforts to deal roughly with those whose principal object in this great emergency is to make profits, is certain. They have been warned that drastic means will be taken if they fail to measure up in accordance with the nation's needs. The die is cast, and "chisellers," money-bags and the greedy had better be careful if they want to save their hides.

The die is cast, and "chisellers," money-bags and the greedy had better be careful if they want to save their hides.

That Congress will back the President in his efforts to deal roughly with those whose principal object in this great emergency is to make profits, is certain. They have been warned that drastic means will be taken if they fail to measure up in accordance with the nation's needs. The die is cast, and "chisellers," money-bags and the greedy had better be careful if they want to save their hides.

British Minister of Labor Assured That American Workers Appreciate Need For Speeding Up Production

In a cablegram dated December 22, Vice-Admiral Michael Wolf of the British Ministry of Labor informed Ernest Bevin, British Minister of Labor, that the workers of this country would cooperate wholeheartedly in the British struggle and expressed hope that the 1941 world situation "the downfall of the dictatorships and the triumph of the restoration of freedom and democracy."

Mr. Wolf's cablegram was in response to an appeal from the British ministry of labor to the American workers to help break the "British barrier" of the Nazis by speeding up production of planes and other materials for Great Britain.

To advance the work of the American committee to all British Labor, Mr. Wolf directed a cablegram to the presidents of 19 national and

Ladies Garment Workers Union Asks Efficient Management by Employers

New York City, Jan. 8 (APL). Julius Hochman, general manager of the Dress Joint Board of the International Ladies Garment Workers Union, A. F. of L. told the representatives of five New York garment districts that the workers in a factory have the right to demand efficient management, which would tell the employers how to reasonably run businesses along more efficient lines.

"This should give the workers a place of contract and a place of arbitration in any production or contract," he said. "We have found from experience that the more the management is ready to be told the more we are ready to be told," he said.

As an additional step in its campaign, the union has asked the Dress Joint Board to make New York City the style center of the world, the union recommended that the dress industry, in which the dress industries' employers and the association of the M. Hochman's

presidential would make this the first in a code of fair practices.

Pointing out that the earnings of workers paid on a piece-rate basis were kept low by faulty plant organization, inefficient management, and lack of efficient management, Mr. Hochman said the union would insist on the right of the contract clause giving workers the right to file charges with the impartial chairman of the dress industry, in which the dress industries' employers and the association of the M. Hochman's

presidential would make this the first in a code of fair practices.

St. Paul Packing Company Ordered To Produce Books and Records in Wage-Hour Law Enforcement

Efforts of the Wage and Hour Division, U. S. Department of Labor, to examine books and records of St. Paul Packing Company in enforcement of the Wage and Hour Law were maintained by court action. The U. S. District Court at St. Paul signed an order requiring the company to permit the examination.

Judge Bell, in his order, directed

for the court to file a copy of the proceedings in Minnesota.

A number of other lower courts have

expended the right of the Administrator to examine books and records in enforcement of the wage-hour law, and recently the St. Paul Packing Company

Court refused to review a decision of the Circuit Court of Appeals for the Eighth Circuit in St. Paul that the new contract for all three chains will expire on June 1, 1942.

The court held that the new contract with general wage increases of 12 a week and a union shop contract.

Judge Bell's order, signed December 31, 1940, was regarded as highly important to the Wage and Hour Division in enforcement of the minimum wage and maximum hour provisions of the act, because various branches of the industry, which are outside of the country, have also refused to produce books and records for examination.

The clerk accepted the settlement by an overwhelming majority. They are

the employees of the Great Northern and Pacific Tea Company, American Stores Company and Food Fair markets, operating in Massachusetts, New Jersey and Delaware.

The contract for the Food Fair stores will go into effect when the new contract for all three chains

will expire on June 1, 1942.
